

Corrigendum: Taxonomic and nomenclatural notes on desmids II. Intraspecific taxa of *Euastrum neosinuosum* O.V. Anissimova & Guiry (Zygnematophyceae, Desmidiaceae)

Olga V. Anissimova, *Faculty of Biology, M.V. Lomonosov Moscow State University, Leninskie Gory, 1, Building 12, Moscow, 119991, Russia* (correspondence: flora_oa@mail.ru)

Michael D. Guiry, *AlgaeBase, Ryan Institute, NUI Galway, Galway H91 TK33, Ireland.*

Two names, *Euastrum neosinuosum* f. *africanum* and *Euastrum neosinuosum* var. *africanum*, introduced in Anissimova & Guiry (2021) are homonyms (ICN Art. 24.4, note 2).

We propose to resolve this issue as follows:

Euastrum neosinuosum* var. *africanum (Woodhead & Tweed) O.V. Anissimova & Guiry, *comb. nov.*

Basionym: *Euastrum sinuosum* var. *africanum* Woodhead & Tweed, *Hydrobiologia* 12: 185, fig. 15, 1958.

Euastrum neosinuosum* f. *bourrellyanum O.V. Anissimova & Guiry, *nom. nov.*

Replaced name: *Euastrum sinuosum* [var. *scrobiculatum*] f. *africanum* Bourrelly ('*africana*'), *Bulletin de l'Institut Française d'Afrique Noire. Série A, Sciences Naturelles* 23: 335, 357, pl. 15: figs 1–3, 1961, *nom. illeg. non Euastrum sinuosum* var. *africanum* Woodhead & Tweed, 1958.

We are grateful to Richard L. Moe (*Index Nominum Algarum*) for pointing out this error.
